Summer

“Summer time, summer time,
Let’s go out and play

Swimming, lemonade and travel-fun

I like these kind of days”

Dear Parents,
Summer vacation is the best time to engage children in creative pursuits at leisure. We want our Cambridge learners to be groomed as confident, responsible, innovative, engaged and reflective. It is going to be a collaborative effort of parents and teachers. Keeping this in mind, we have planned some interesting and fun-filled activities for the young ones which will help to enhance their language skills, encourage simple conversations and also strengthen family ties. Let’s help children enjoy this wholesome experience! Kindly take printout of the worksheets and activity sheets and submit them after summer vacation.

May your holidays be happy days, filled with laughter, fun and joy!

1. Let's instill the values of using "GOLDEN WORDS "in our daily lives.

2. We are happy to see that our children are adjusting well to the school environment, learning different concepts and enjoying with their peer group. You can revise the concepts done in the month of Apr - May with your child at his/her pace.
3. Help your child, to write his/her name independently. They can also practice writing of date and class work (C.W.)
4. Let your child learn the important telephone numbers.
